The 1/2 Ltr forms are made from the leftover materials from the actual production. Each edition is limited to the number that can be made from the leftovers. In the production of glass, colour cones are used to realise individual colour wishes, often leaving small remains that can no longer be assigned. We use these mixed colours for our limited editions. The shape but also the intensity of the colour is always unique. All works are signed and numbered.

1/1 handsigned, 100.00 €/per piece / excl. VAT/ various colours/ up to 13×13 cm
